SUPER[®]
INOX 

Siamo un'azienda innovativa che produce esclusivamente rubinetti di alta gamma per bagno e cucina in **Acciaio Inox AISI316L**. Grazie alla decennale esperienza nel settore, uniamo un'accurata ricerca tecnologica ad un design di prodotto fortemente caratterizzante.

*We are an innovative company which exclusively manufactures high-end **AISI316L stainless steel** faucets for bathroom and kitchen. Thanks to our long experience in the industry, we combine attentive technological research with distinctive product design.*

Materiale Material

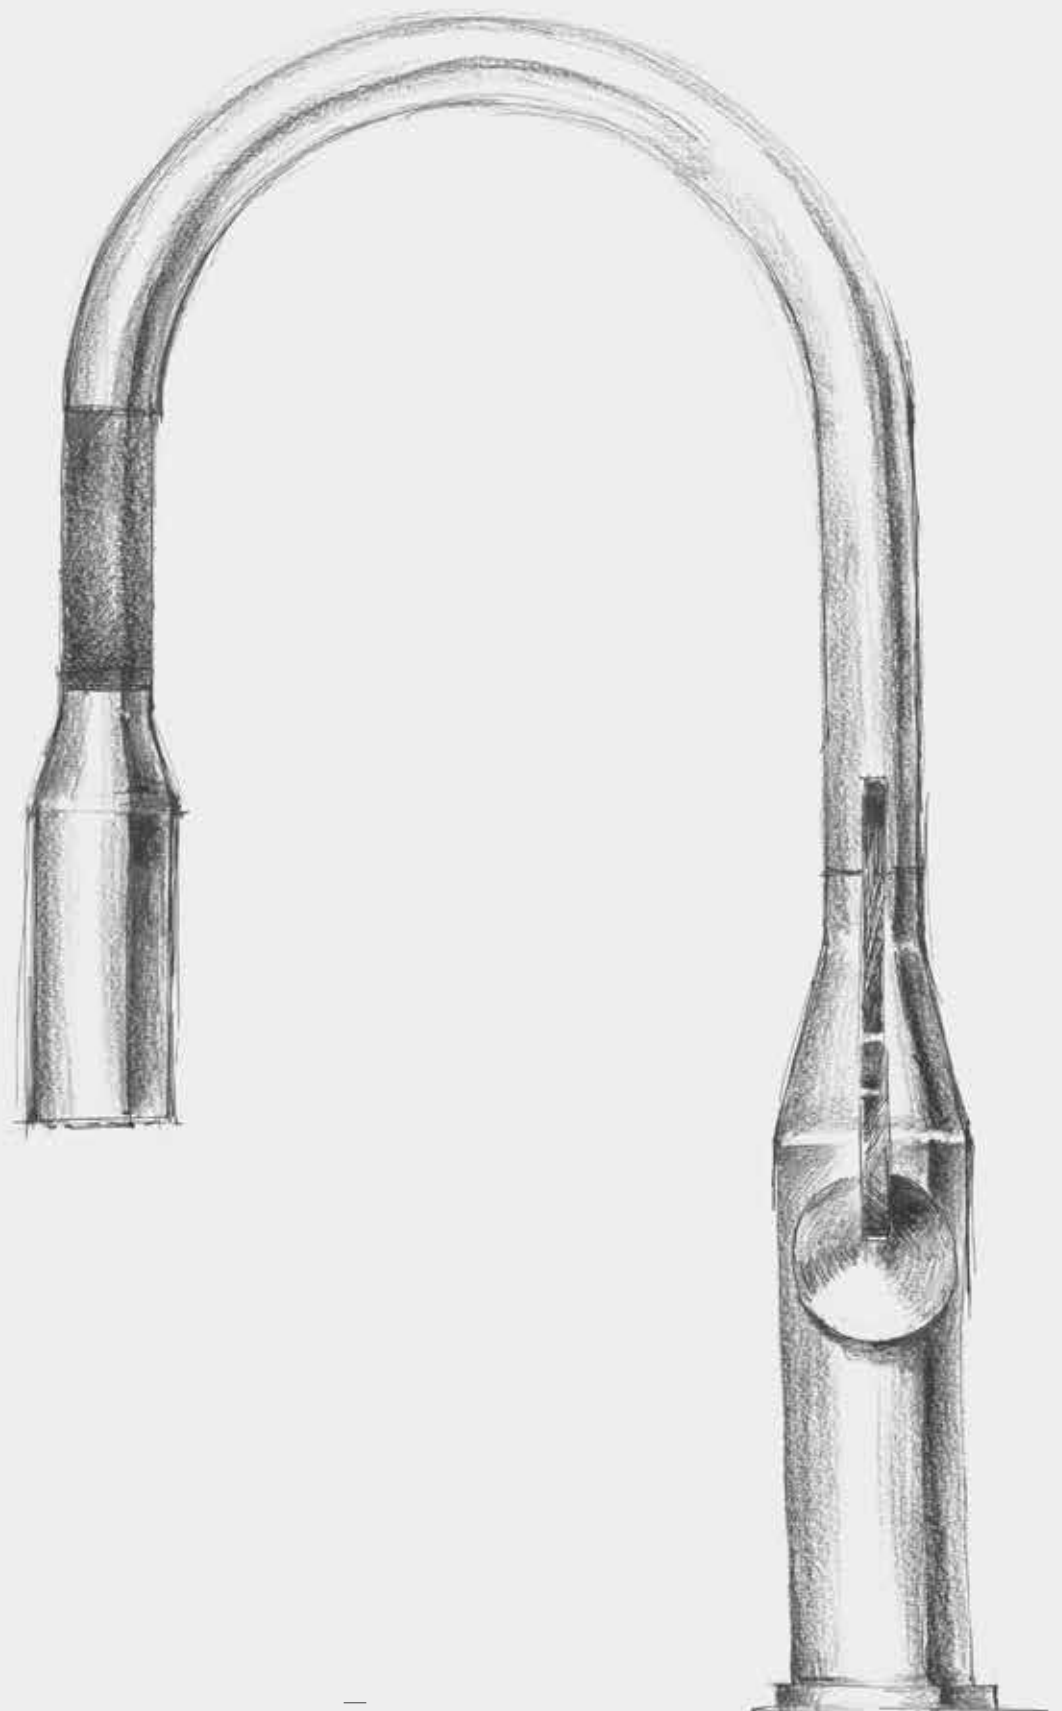

Per la realizzazione dei nostri prodotti utilizziamo esclusivamente **acciaio inox AISI316L**, un materiale che presenta caratteristiche tecniche ed estetiche rilevanti, tra cui **durabilità, resistenza alla corrosione** e al **calore**. L'acciaio è un materiale biologicamente neutro, **igienico, atossico, antibatterico, ecologico, riciclabile e di facile pulizia**. A ciò si aggiunge la notevole **valenza estetica**, ottenuta dalle diverse finiture realizzabili in superficie.

*To manufacture our products, we use **AISI316L stainless steel** only. This material offers countless important technical and aesthetic features, among them **durability and high resistance to corrosion and heat**. Stainless steel is biologically pure, neutral, **hygienic, non-toxic, anti-bacterial, environment friendly, recyclable and easy to clean**. From an **aesthetic point of view**, steel offers the possibility of several different surface-finishes.*

Design Design

Da sempre poniamo grande attenzione allo **stile** e alla **ricercatezza dei nostri prodotti**. Il nostro design rispetta e valorizza gli aspetti tecnici e funzionali del prodotto, rendendolo “inossidabile” al passare del tempo. Il nostro team di Ricerca e Sviluppo segue costantemente **linee guida ben precise**, collaborando con rinomati designer e architetti per la realizzazione di collezioni esclusive.

*Since ever we pay great attention to the **style** and **elegance of our products**. Our design enhances the technical and functional aspects of the product, making it durable beyond trends. Our in-house Research and Development team follows **very specific guidelines** and collaborate with renowned designers and architects to realize exclusive collections.*

Designed by
Piet Billekens

.....

*Poniamo grande attenzione
ai dettagli così come alla
cura del prodotto.*

Manutenzione Maintenance

Per la pulizia dell'acciaio inox si consiglia di utilizzare un **detergente neutro** e di **risciacquarlo con abbondante acqua**. Al termine dell'operazione **asciugare il prodotto con un panno morbido** per evitare il deposito di residui calcarei.

Evitare l'utilizzo dei seguenti prodotti:

- prodotti igienizzanti come candeggina, ossidi di etilene, cloruri e tensioattivi non ionici
- detergenti a base di acido clorico, fluoridrico, fosforico e muriatico
- pagliette e spazzole metalliche, detergenti abrasivi o in polvere

*For the care and cleaning we recommend using a **neutral cleaning product** and **rinsing well with water**. When done, **dry with a soft cloth** to avoid deposit of limescale residues.*

Avoid the use of the following cleaning products:

- *sanitizing products such as bleach, ethylene oxide, chloride, and non-ionic surfactants*
- *products containing chloric, hydrofluoric, phosphoric, and muriatic acid*
- *scouring pads, metal brushes, powder abrasive detergent*

Step by step

Step by step

Sistema di rubinetteria ad incasso componibile, composto da
due elementi fondamentali l'uno per l'altro:
PARTE ESTERNA + PARTE INCASSO.

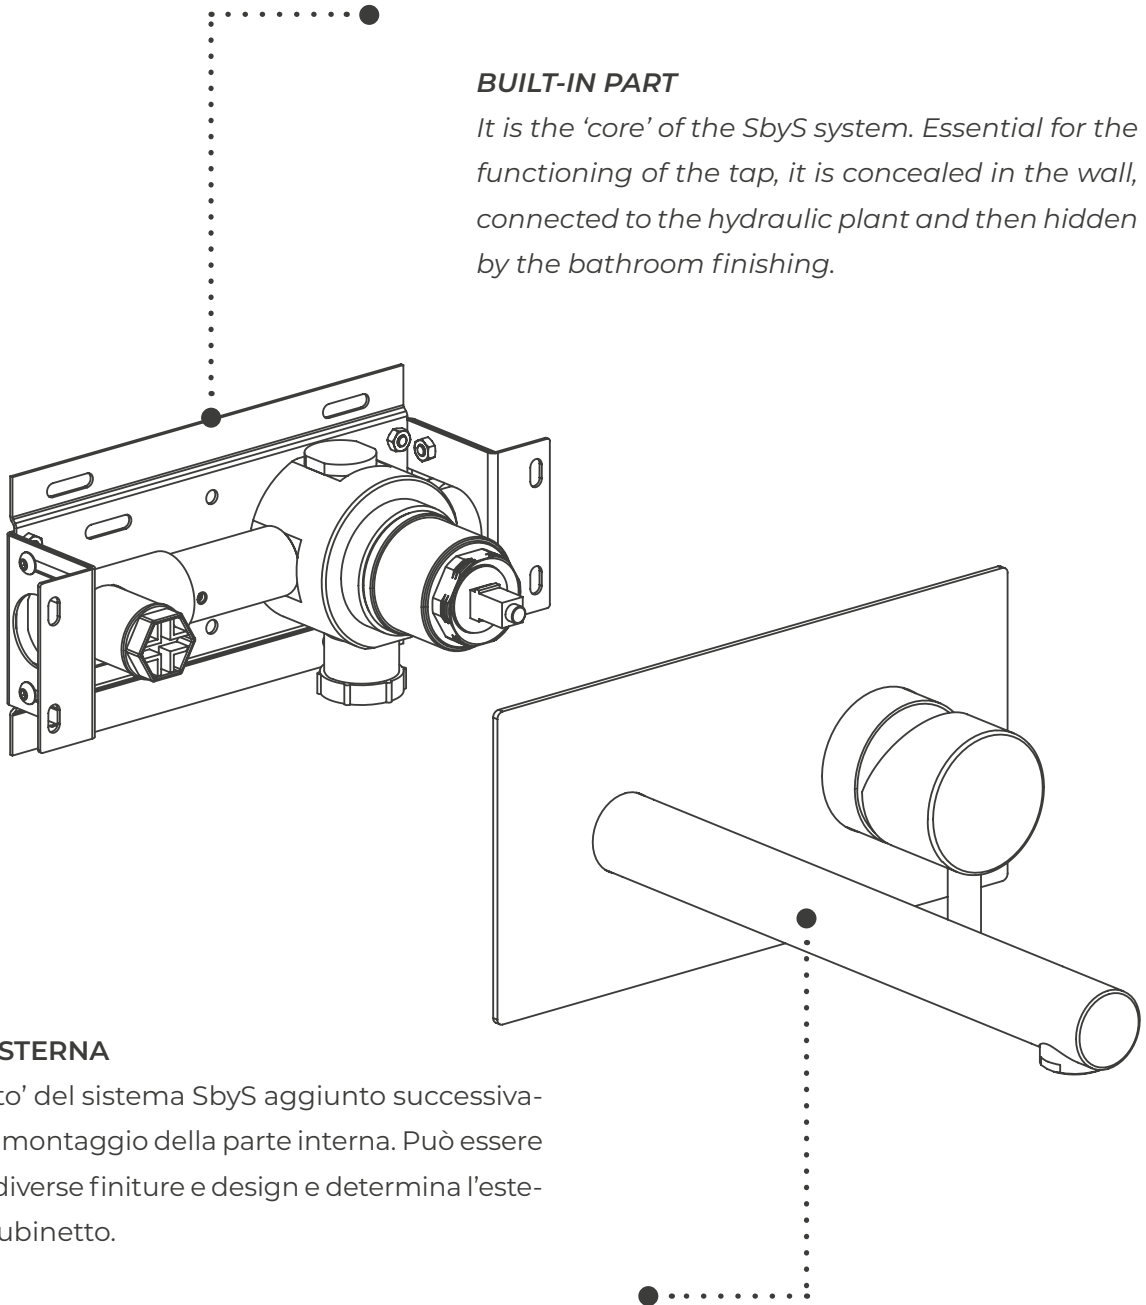

*Built-in modular mixing system, made of **two basic elements**:*
EXTERNAL PART + BUILT - IN PART.

PARTE INTERNA

É il 'cuore' del sistema SbyS. Fondamentale per il funzionamento del rubinetto stesso, viene incassato nella parete, collegato all'impianto idraulico e successivamente nascosto dalla finitura del bagno.

BUILT-IN PART

It is the 'core' of the SbyS system. Essential for the functioning of the tap, it is concealed in the wall, connected to the hydraulic plant and then hidden by the bathroom finishing.

PARTE ESTERNA

É il 'vestito' del sistema SbyS aggiunto successivamente al montaggio della parte interna. Può essere scelto in diverse finiture e design e determina l'estetica del rubinetto.

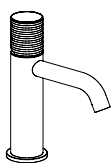

EXTERNAL PART

It is the 'dress' of the SbyS system, and it is mounted after the installation of the built-in part. It can be chosen among different finishes and designs and determines the aesthetics of the tap.

* Corpo incasso in ottone - Brass built-in body

EXO

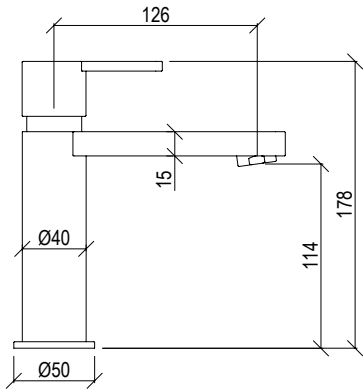

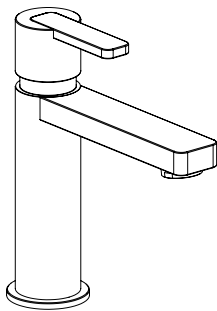

Designed by **Piet Billekens**

EXO Un design fuori dagli schemi. Una combinazione sorprendente e decisa. L'incontro tra superfici cilindriche e squadrate supera i limiti imposti dalla tenacia dell'acciaio, dando vita a forme inaspettate.

EXO *An out-of-the box design. An outstanding and impressive collection. The combination of rounded and squared forms goes beyond the limits imposed by the toughness of stainless steel, giving life to unexpected shape.*

RÉTRO

Step by step

Sistema di rubinetteria ad incasso componibile, composto da **due elementi fondamentali** l'uno per l'altro:
PARTE ESTERNA + PARTE INCASSO.

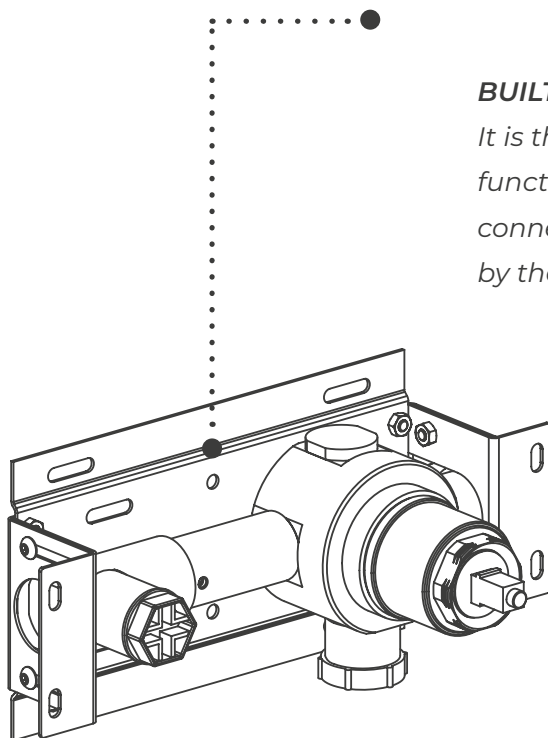

*Built-in modular mixing system, made of **two basic elements**:*
EXTERNAL PART + BUILT - IN PART.

PARTE INTERNA

É il 'cuore' del sistema SbyS. Fondamentale per il funzionamento del rubinetto stesso, viene incassato nella parete, collegato all'impianto idraulico e successivamente nascosto dalla finitura del bagno.

BUILT-IN PART

It is the 'core' of the SbyS system. Essential for the functioning of the tap, it is concealed in the wall, connected to the hydraulic plant and then hidden by the bathroom finishing.

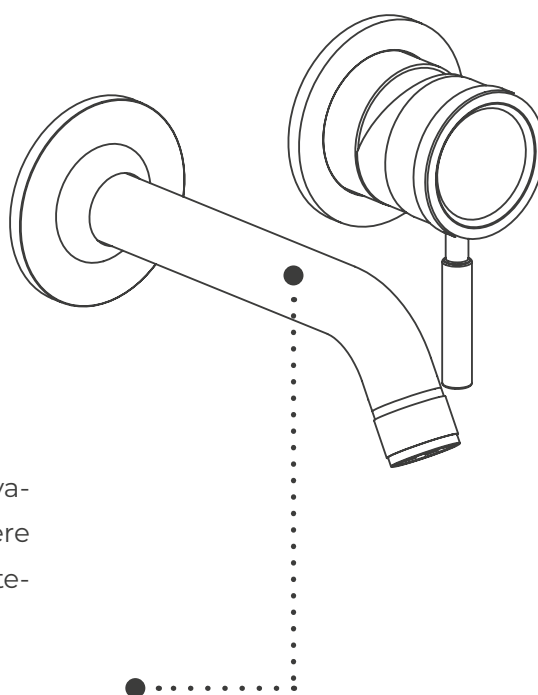

PARTE ESTERNA

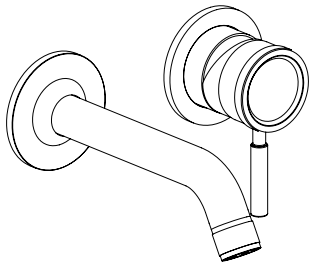

É il 'vestito' del sistema SbyS aggiunto successivamente al montaggio della parte interna. Può essere scelto in diverse finiture e design e determina l'estetica del rubinetto.

EXTERNAL PART

It is the 'dress' of the SbyS system, and it is mounted after the installation of the built-in part. It can be chosen among different finishes and designs and determines the aesthetics of the tap.

0285131X PARTE ESTERNA

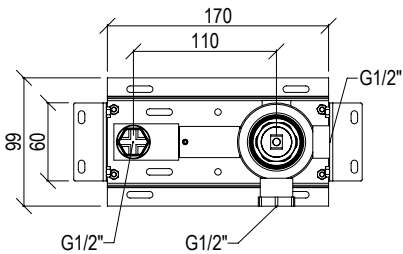

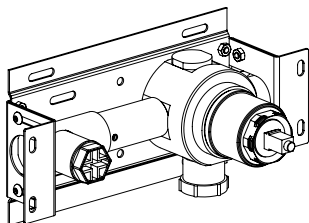

- Miscelatore lavabo incasso Ø45mm inox 316L
- Bocca l. 16cm con aeratore anticalcare M18,5x1

CAVE

Step by step

Sistema di rubinetteria ad incasso componibile, composto da **due elementi fondamentali** l'uno per l'altro:
PARTE ESTERNA + PARTE INCASSO.

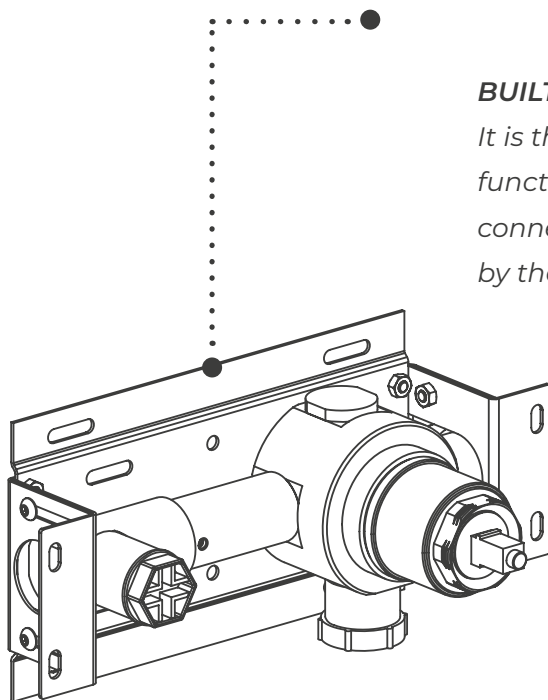

*Built-in modular mixing system, made of **two basic elements**:*
EXTERNAL PART + BUILT - IN PART.

PARTE INTERNA

É il 'cuore' del sistema SbyS. Fondamentale per il funzionamento del rubinetto stesso, viene incassato nella parete, collegato all'impianto idraulico e successivamente nascosto dalla finitura del bagno.

BUILT-IN PART

It is the 'core' of the SbyS system. Essential for the functioning of the tap, it is concealed in the wall, connected to the hydraulic plant and then hidden by the bathroom finishing.

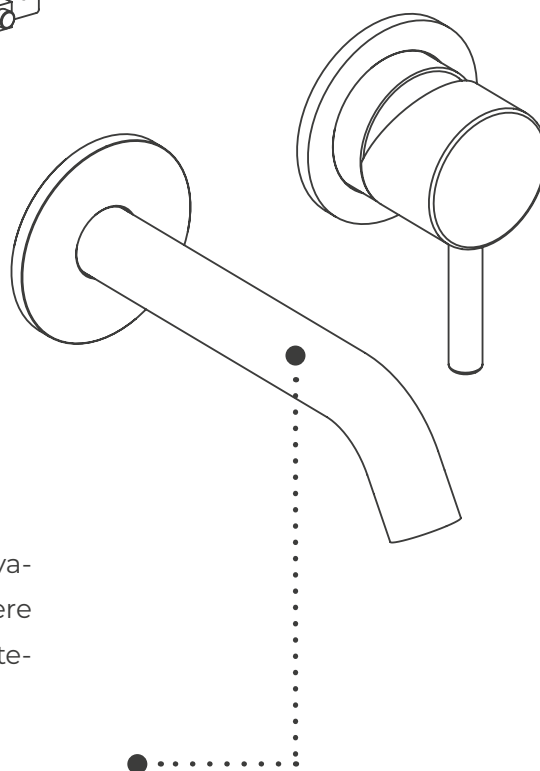

PARTE ESTERNA

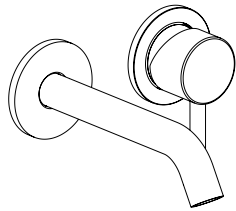

É il 'vestito' del sistema SbyS aggiunto successivamente al montaggio della parte interna. Può essere scelto in diverse finiture e design e determina l'estetica del rubinetto.

EXTERNAL PART

It is the 'dress' of the SbyS system, and it is mounted after the installation of the built-in part. It can be chosen among different finishes and designs and determines the aesthetics of the tap.

MINI DMB

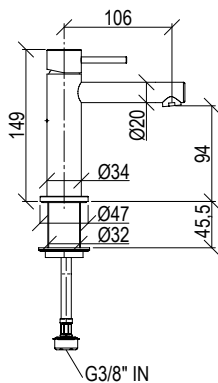

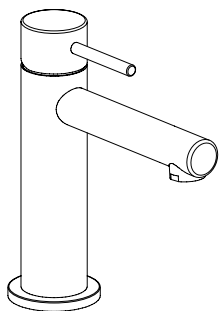

Designed by **Super Inox**

MINI DMB DMB riduce le sue proporzioni e diventa Mini DMB. Stesso semplice design, stessa armonia e affidabilità.

MINI DMB DMB reduces its size and turns into Mini DMB. Same simple design, same harmony and reliability.

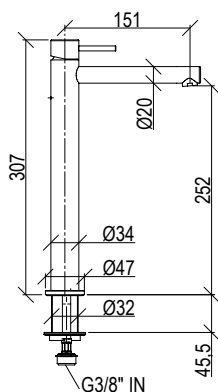

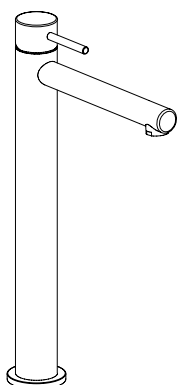

0451119X

DMB

Step by step

Sistema di rubinetteria ad incasso componibile, composto da **due elementi fondamentali** l'uno per l'altro:
PARTE ESTERNA + PARTE INCASSO.

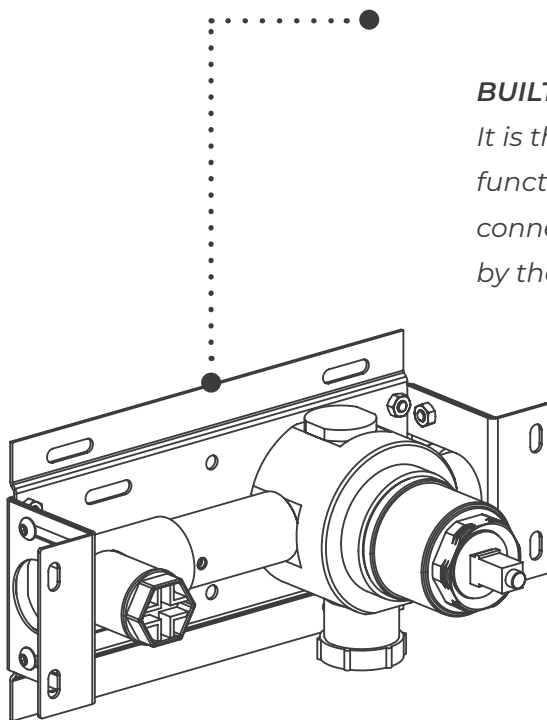

*Built-in modular mixing system, made of **two basic elements**:*
EXTERNAL PART + BUILT - IN PART.

PARTE INTERNA

É il 'cuore' del sistema SbyS. Fondamentale per il funzionamento del rubinetto stesso, viene incassato nella parete, collegato all'impianto idraulico e successivamente nascosto dalla finitura del bagno.

BUILT-IN PART

It is the 'core' of the SbyS system. Essential for the functioning of the tap, it is concealed in the wall, connected to the hydraulic plant and then hidden by the bathroom finishing.

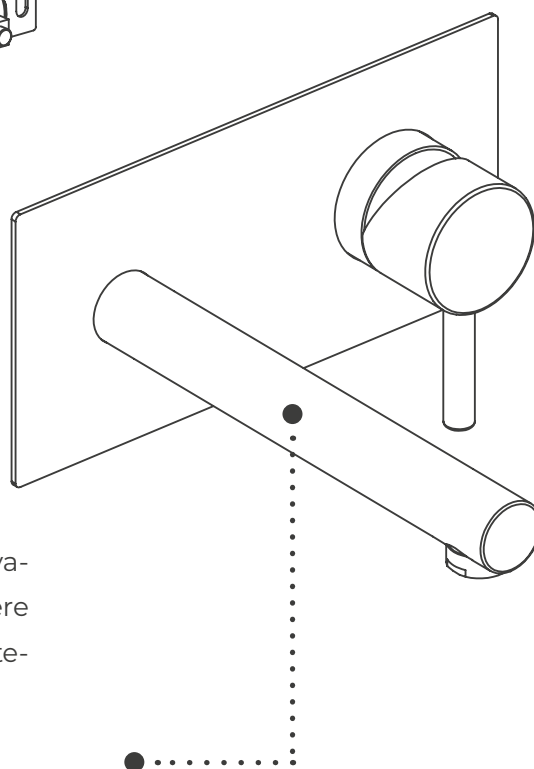

PARTE ESTERNA

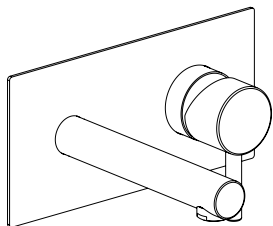

É il 'vestito' del sistema SbyS aggiunto successivamente al montaggio della parte interna. Può essere scelto in diverse finiture e design e determina l'estetica del rubinetto.

EXTERNAL PART

It is the 'dress' of the SbyS system, and it is mounted after the installation of the built-in part. It can be chosen among different finishes and designs and determines the aesthetics of the tap.

CONDIZIONI GENERALI DI VENDITA

Accettazione ordini:

La commissione è sempre subordinata all'approvazione della Casa Venditrice. Le condizioni di vendita si intendono accettate dal committente al momento del conferimento dell'ordine e con il ritiro del materiale.

Consegne e resi:

La merce è resa franco deposito di partenza e viaggi a rischio e pericolo del committente. Il venditore si riserva di poter effettuare consegne parziali.

Spedizioni:

Le quantità devono essere verificate all'atto del ricevimento ed eventuali discordanze vanno annotate sulla bolla di consegna mediante accettazione "con riserva". Eventuali spese aggiuntive per giacenze sono a carico del committente.

Imballaggio:

L'imballaggio è effettuato con imballi standard ed eventualmente su pallets a carico del committente.

Termini di consegna:

I termini di consegna, eventualmente indicati, sono sempre forniti a puro titolo indicativo e non vincolante.

Prezzi:

I prezzi riportati nei listini non sono vincolanti. La Super Inox Srl si riserva la facoltà di variare i prezzi di vendita in qualsiasi momento senza alcun preavviso.

Pagamenti:

L'eventuale ritardo del pagamento comporterà l'addebito di interessi al tasso corrente. La Super Inox Srl si riserva la facoltà di sospendere eventuali ordini in corso in presenza di pagamenti irregolari. Le contestazioni di qualsiasi valore o entità non danno diritto alla sospensione dei pagamenti.

Reclami:

Non si accettano reclami o resi merce trascorsi 7 giorni dal ricevimento della stessa. I reclami devono pervenire entro i termini indicati tramite e-mail. Ogni reso deve essere preventivamente autorizzato dalla Super Inox Srl che fornirà istruzioni in merito.

Caratteristiche tecniche:

La Super Inox Srl si riserva la facoltà di apportare ogni variazione agli articoli senza alcun preavviso.

Riserva dominio:

I prodotti rimangono di proprietà della Super Inox Srl fino al totale pagamento del prezzo in conformità a quanto previsto dal C.C.

Responsabilità:

La Super Inox Srl non fornisce garanzie circa l'impiego errato o inadatto dei propri prodotti. Qualora il materiale risultasse difettoso per vizi di fabbricazione riconosciuti a seguito di perizia, la Super Inox Srl si riserva di sostituirlo o accreditarne il valore senza che la propria responsabilità si possa estendere in nessun caso ad altri oneri.

Foro:

Per qualsiasi controversia il Foro competente è quello di Verbania.

GENERAL TERMS AND CONDITIONS OF SALE

Acceptance of the order:

The order is accepted when the customer will receive the order confirmation. Terms and conditions of sale are accepted by the customer when he submits the order and receives the goods.
